- January 30: National Bible Day, National Draw a Dinosaur Day, National Storytelling Week
- January 31: Inspire Your Heart with Art Day, National Backward Day, National Hot Chocolate Day

let's count!

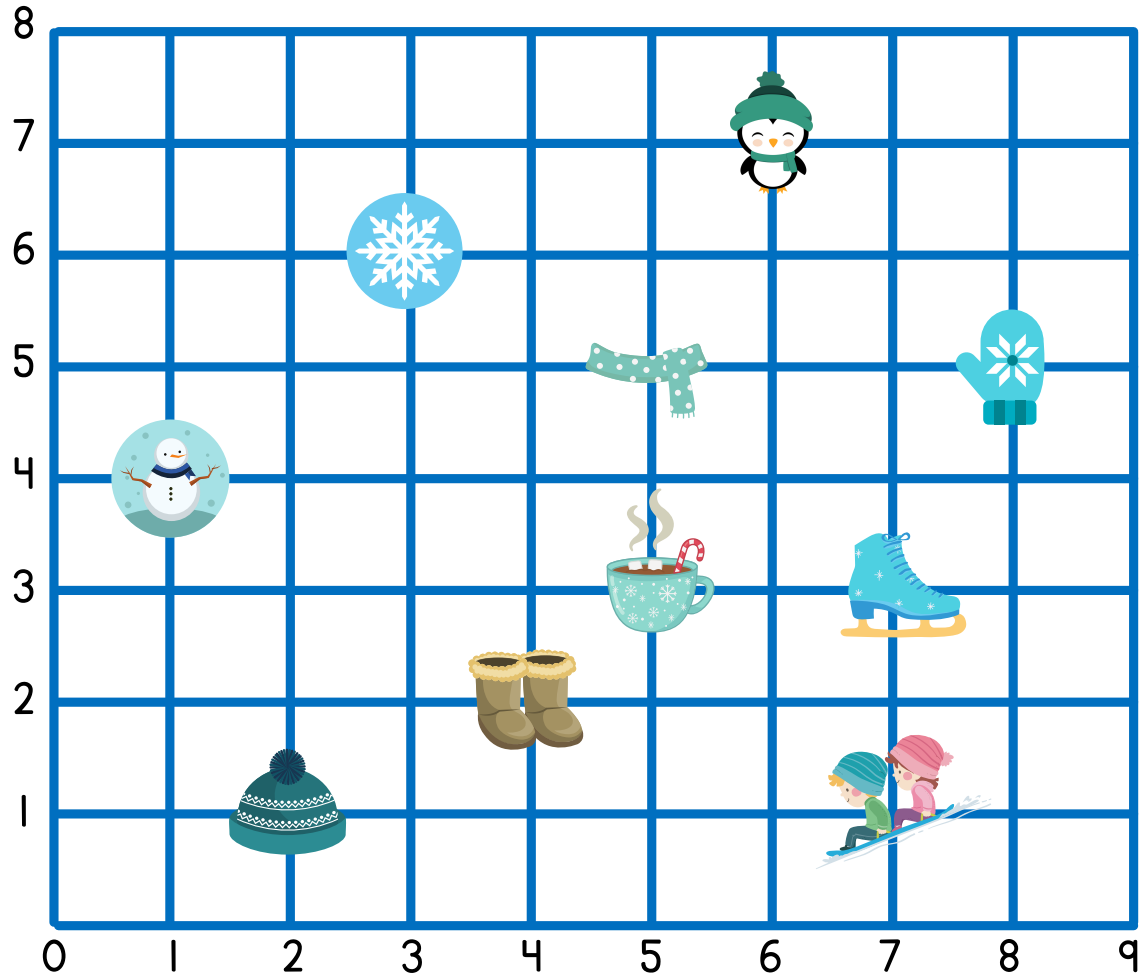

Count and write your answers in the chart below

Winter Coordinate Grid

Locate each winter icon and write the coordinates of its point.

(_,_) (_,_) (_,_) (_,_) (_,_)

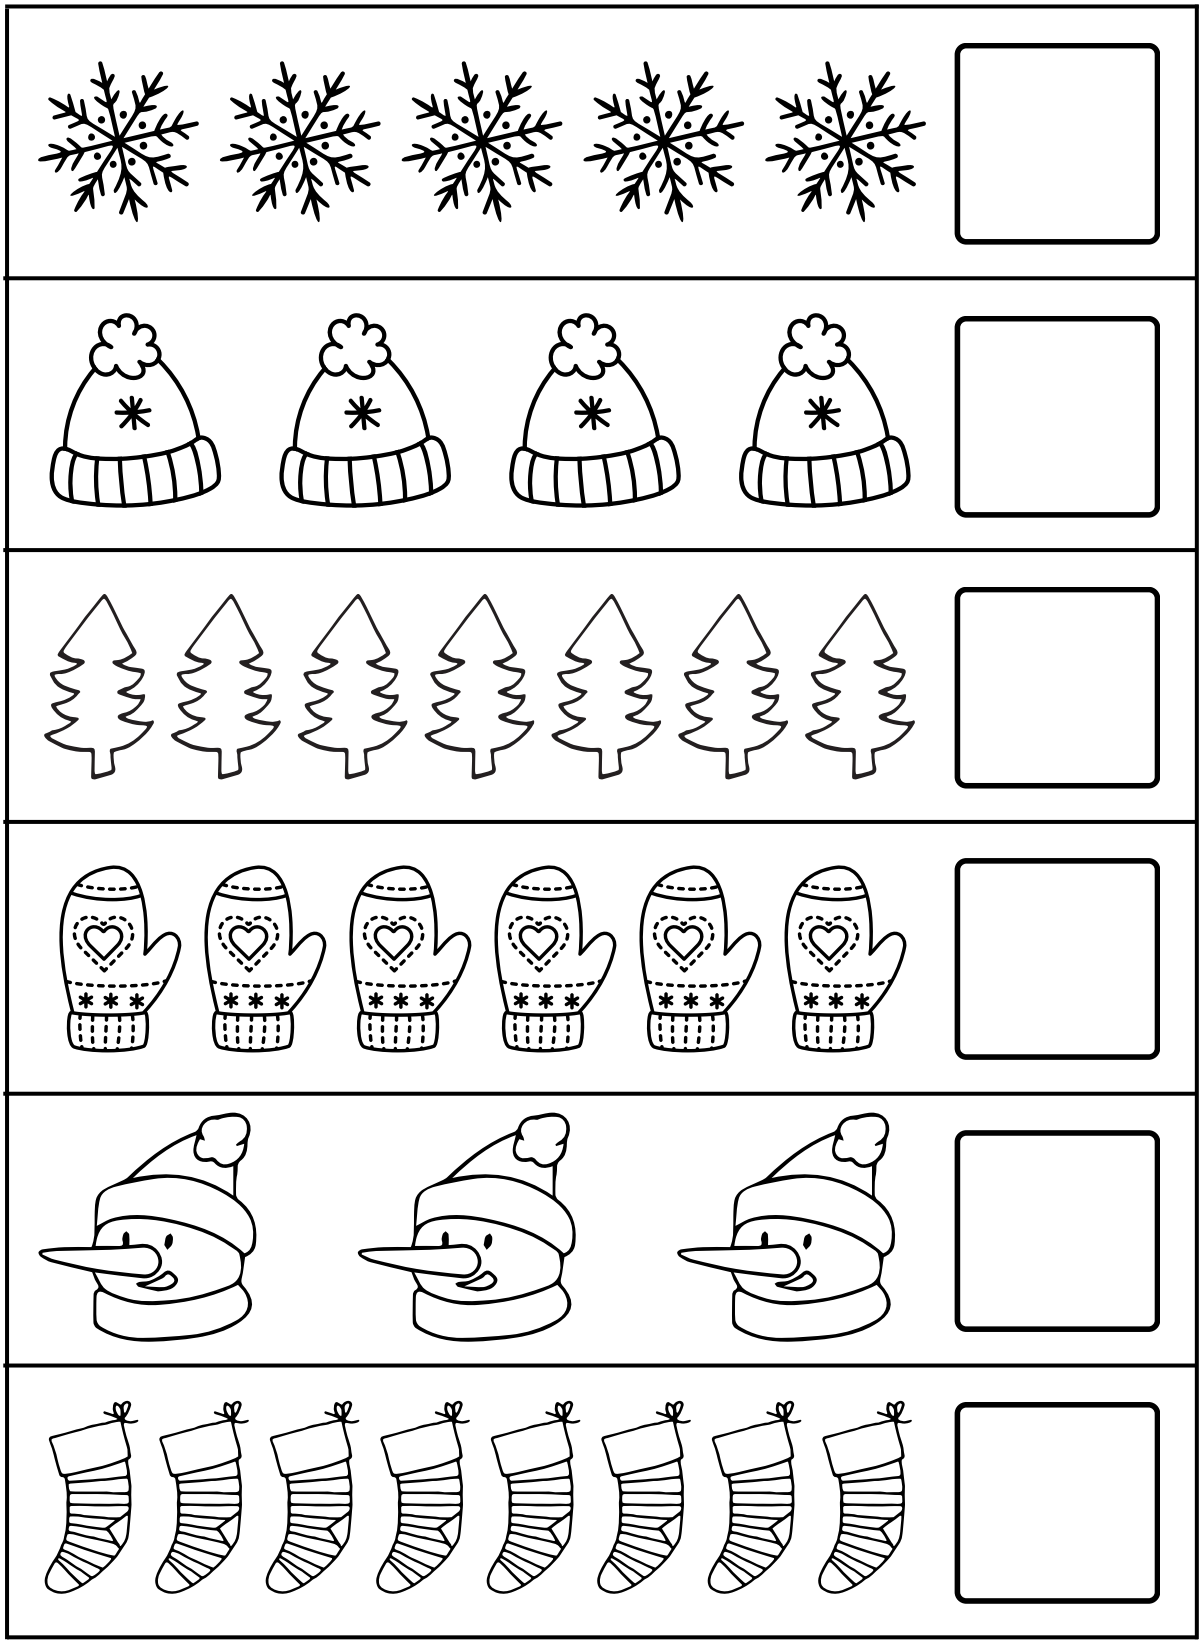

(_,_) (_,_) (_,_) (_,_) (_,_)

How many?

Count the winter objects and write the numbers (1–10) in the box

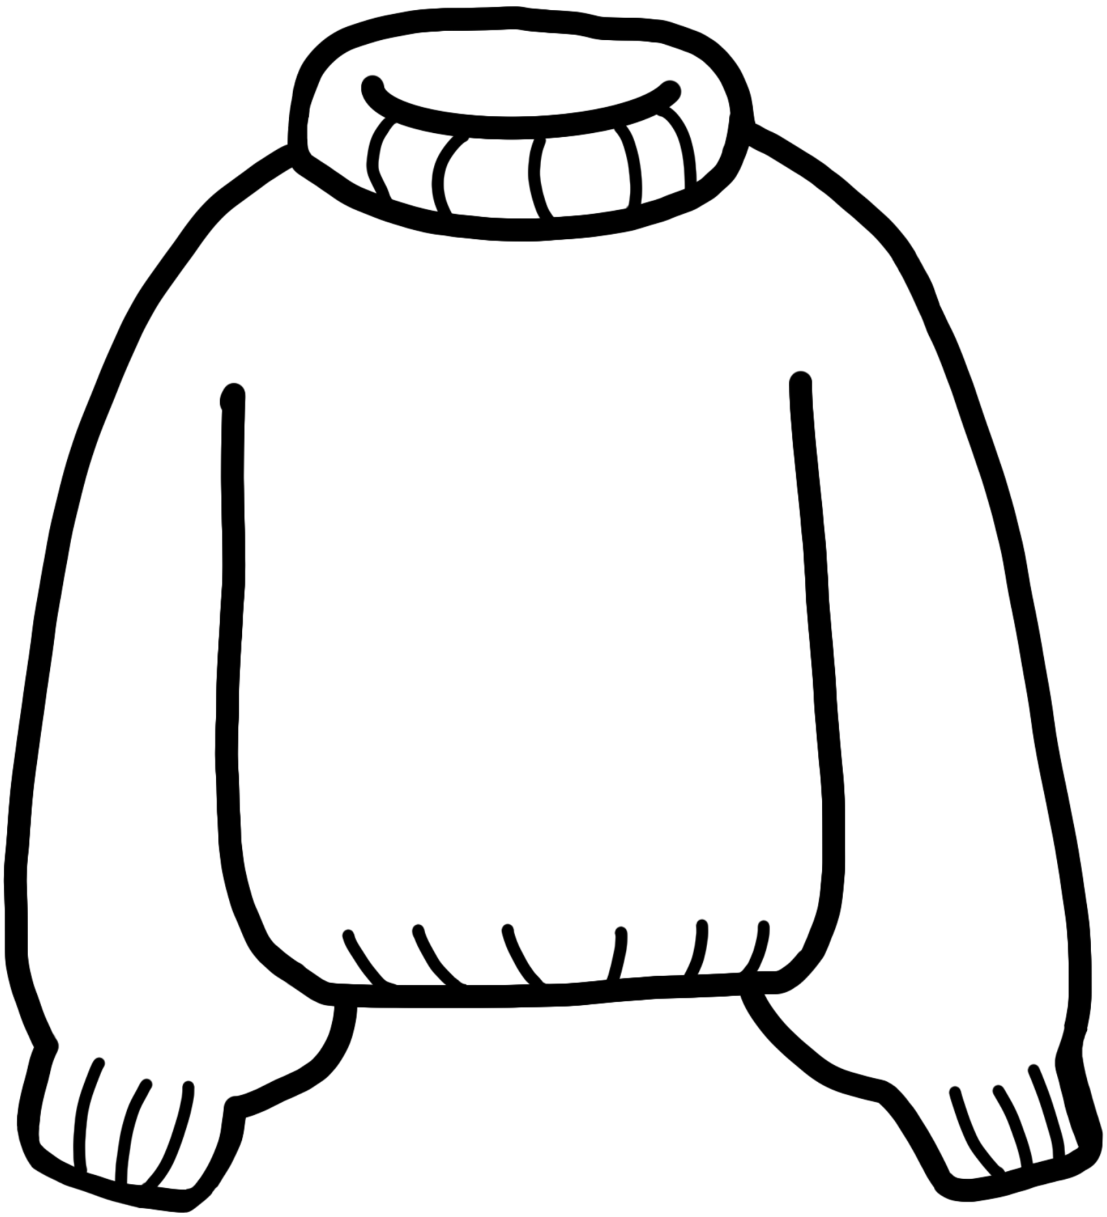

winter
COLORING PAGE

Create a cool color palette and use it to color the winter pictures

MY SWEATER

Design a sweater for your winter season. Write about it below.

.....

Reading Comprehension

HIBERNATION

Over Winter, some animals hibernate. Hibernation is when an animal goes into a deep sleep to pass the cold winter. Their body temperature is lowered, and their breathing and heart rate slows down to conserve energy. In fact, some animals look dead when they are hibernating.

Animals hibernate in dark and quiet places such as underground (eg chipmunks, groundhogs, queen bumblebees), tree trunks and roots (eg hedgehogs) or in caves (eg bats and bears). They stay there all Winter, and do not wake until Spring time. This helps them survive the colder months, because during Winter, there is less food available in their environments. During the warmer seasons, hibernating animals prepare for hibernation by eating a lot of food and storing excess fat to keep them alive.

But what about animals who can't hibernate - how do they survive the cold winter temperatures and lack of available food? Some migrate which means they move to warmer climates, such as whales and some birds, while others store food such as squirrels and beavers.

1 In your own words, define hibernation: _____

_____

2 Describe two changes that occur in the bodies of hibernating animals:

- _____
- _____

3 Why do animals hibernate over Winter and not other seasons? _____

_____

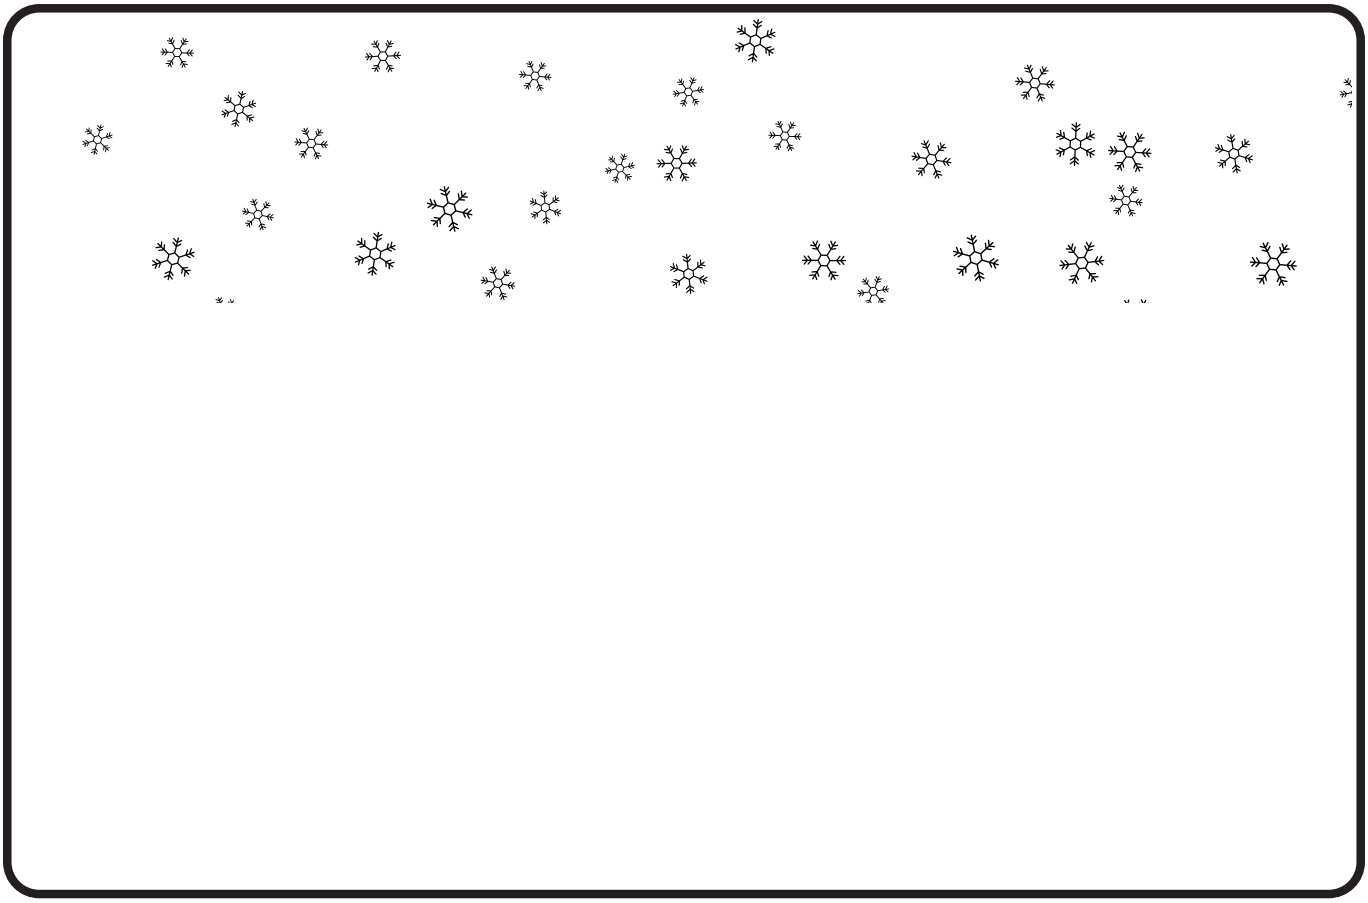

4 Why is there less food available in Winter than in other seasons? _____

_____

5 Why do you think animals hibernate underground, in tree roots or in caves? _____

_____

WINTER FUN

Directions: Finish the picture and then complete the sentence based on your drawing.
